

Test Cases

1. Dashboard

ID	Title
C154	Check page is correctly displayed

2. Purchases

2.1. Overview

ID	Title
C127	Check Overview page is correctly displayed

2.2. All purchases

ID	Title
C128	Check All purchases page is correctly displayed
C131	Check a new purchase can be added
C132	Check a new purchase can be edited
C133	Check no purchase date validation
C134	Check incorrect purchase date validation
C139	Check no species validation
C140	Check no market validation
C141	Check no mark door validation
C142	Check incorrect mark door validation
C143	Check no boat validation

3. Stocks

ID	Title
C144	Check page is correctly displayed
C145	Check a new filet can be added
C146	Check no market validation
C147	Check no category validation
C148	Check no number of boxes validation
C149	Check no box weight validation
C150	Check no cost per kg validation

4. Sales

4.1. Overview

ID	Title
C126	Check Overview page is correctly displayed

4.2. All sales

ID	Title
C129	Check All sales page is correctly displayed
C153	Check that a new sale can be added when a transport that does deliver to customers and has no minimum weight per order is specified
C155	Check that a new sale can be edited when a transport that does deliver to customers and has no minimum weight per order is specified

C160	Check minimum weight per order validation
C161	Check a sale validation when the transport is not delivering to customers and it has no minimum weight per order specified

5. Dispatch

5.1. Overview

ID	Title
C124	Check Overview page is correctly displayed

5.2. All dispatches

ID	Title
C125	Check All dispatches page is correctly displayed

6. Users

ID	Title
C94	Check users page is correctly displayed
C95	Check a new user that doesn't have a Paletter role can be added
C96	Check a user that doesn't have a Paletter role can be edited
C97	Check a user that doesn't have a Paletter role can be deleted
C98	Check no first name validation

C99	Check incorrect first name validation
C100	Check no last name validation
C101	Check incorrect last name validation
C102	Check no email address validation
C103	Check no password validation
C104	Check incorrect password validation
C120	Check incorrect email address validation
C121	Check a new user that has a Paletter role can be added
C122	Check a new user that has a Paletter role can be edited
C123	Check a new user that has a Paletter role can be deleted

7. Categories

ID	Title
C72	Check categories page is correctly displayed
C73	Check a new category can be added
C74	Check a category can be edited
C75	Check a category can be deleted
C76	Check a new category displays the right details
C77	Check a cateory can be edited once its details have been checked
C78	Check a cateory can be deleted once its details have been checked
C79	Check no category name validity
C80	Check incorrect category name validity
C81	Check no link purchased species validity (not a mandatory field)
C82	Check no link sales products validity (not a mandatory field)
C83	Check incorrect whole value validity
C84	Check incorrect headless value validity
C85	Check incorrect filet skin on flap on value validity
C86	Check incorrect filet skin on flap off value validity
C87	Check incorrect filet skin off flap on value validity
C88	Check incorrect filet skin off flap off value validity
C89	Check incorrect filet j-cut skin on value validity
C90	Check incorrect filet j-cut skin off value validity

C91	Check incorrect butterfly value validity
C92	Check incorrect skin off v-cut value validity
C93	Check no duplication should be allowed

8. Products

ID	Title
C60	Check products page is correctly displayed
C61	Check a new product can be added
C62	Check a product can be edited
C63	Check a product can be deleted
C64	Check a new product displays the right details
C65	Check a product can be edited once its details have been checked
C66	Check a product can be deleted once its details have been checked
C67	Check no product name validity
C68	Check incorrect product name validity
C69	Check no display name validity
C70	Check no sage code validity
C71	Check no default cut validity
C130	Check no duplication allowed

9. Species

ID	Title
C54	Check species page is correctly displayed
C55	Check a new species can be added
C56	Check a species can be edited
C57	Check a species can be deleted
C58	Check no species name validity
C59	Check incorrect species name validity
C110	Check no duplication allowed

10. Customers

ID	Title
C43	Check customers page is correctly displayed
C44	Check a new customer can be added

C45	Check a customer can be edited
C46	Check a customer can be deleted
C47	Check a new customer displays the right details
C48	Check a customer can be edited once its details have been checked
C49	Check a customer can be deleted once its details have been checked
C50	Check no bussiness name validity
C51	Check incorrect bussiness name validity
C52	Check no sage code validity
C53	Check incorrect sage code validity
C111	Check a new customer with transport can be added
C112	Check a customer with transport can be edited
C113	Check a customer with transport can be deleted
C114	Check a new customer with transport displays the right details
C115	Check a customer with transport can be edited once its details have been checked
C116	Check a customer with transport can be deleted once its details have been checked
C117	Check no duplication allowed

11. Boats

ID	Title
C33	Check boats page is correctly displayed
C34	Check a new boat can be added
C35	Check a boat can be edited
C36	Check a boat can be deleted
C37	Check a new boat displays the right details
C38	Check a boat can be edited once its details have been checked
C39	Check a boat can be deleted once its details have been checked
C40	Check no boat name validity
C41	Check incorrect boat name validity
C42	Check no office validity
C109	Check no duplication allowed

12. Offices

ID	Title
----	-------

C24	Check offices page is correctly displayed
C25	Check a new office can be added
C26	Check an office can be edited
C27	Check an office can be deleted
C28	Check a new office displays the right details
C29	Check a market can be edited once its details have been checked
C30	Check a market can be deleted once its details have been checked
C31	Check no office name validity
C32	Check incorrect office name validity
C108	Check no duplication allowed

13. Markets

ID	Title
C12	Check markets page is correctly displayed
C13	Check a new market can be added
C14	Check a market can be edited
C15	Check a market can be deleted
C16	Check a new market displays the right details
C17	Check a market can be edited once its details have been checked
C18	Check a market can be deleted once its details have been checked
C19	Check no market name validity
C20	Check incorrect market name validity
C21	Check no number of doors validity
C22	Check incorrect delivery time validity (less than 0)
C23	Check incorrect delivery time validity
C106	Check incorrect market cost validity (more than 0)
C107	Check no duplication is allowed
C118	Check incorrect market cost validity
C119	Check no number of doors validity

14. Transports

ID	Title
C1	Check transports page is correctly displayed

C2	Check a new transport can be added
C3	Check a transport can be edited
C4	Check a transport can be deleted
C5	Check validity no transport name
C6	Check validity incorrect minimum weight per order
C8	Check validity incorrect transport name
C9	Check a new transport displays the right details
C10	Check a transport can be edited once its details have been checked
C11	Check a transport can be deleted once its details have been checked
C105	Check no duplication is allowed
